

[#*3(PO] REAL FOLLOWERS AND LIKES APPS ON GOOGLE PLAY

when i first downloaded this app it was all good my instagram account was fine and stuff up until recently whenever i went to check this app to see stuff about my account it would log me out of instagram and constantly tell me to re log in and yes i would because i didn t suspect much at first but then this week when i was going to school i saw that some people unfollowed me so i was curious i should ve just stayed curious honestly everything was fine in the morning until i checked my instagram account in 5th period i saw that my friends texted me so i went to try to reply but it said that it got suspended i panicked and was worrying about it because i had lots of memories on there and i also had over 1k following so i tried my best to get it back but it recently said that it s been reviewed and it s final that it is now deleted moral of this little summary do not download this app if you are not willing to have your whole instagram account at risk of being deleted i ve been sad for a couple of days because of this because i ve lost all of my memories posts highlights and even following mutuals is what i m mainly talking about i genuinely wish that i can reverse time to go back and not do that never trust apps instagram started out as a platform for youth to have fun and share goofy pictures only to be gradually become a hub for small business or even big brand names for

online marketing and creating an online brand presence for themselves when such tracks are trending use them to your advantage besides insta reels are the thing now so post as many reels as possible using these trendy background tracks this increases your chances of getting viral tenfold and getting thousands of free instagram followers they re also located at the top of your profile which makes users more likely to check them first before scrolling down to your posts think of highlights as a curated portfolio that showcases the best of your brand
