

## DIAMONDS SMILEYS MEDIUM [#)OS[^] MOD TRAVEL TOWN FREE 50K ENERGY COINS

in 2020 we set an ambitious new goal to operate on carbon free energy 24 hours a day 7 days a week 365 days a year all by 2030 this whitepaper explains the science behind our 24 7 carbon free energy goal and how we hope to achieve it with a background in project development and management giles pendleton has delivered first class solutions driven by sustainability passionate about architecture he drives neom s multidisciplinary development effort to ensure that the line becomes a global best practice example for cities i do enjoy this game but i do have some comments that could make the game better i had this order where i needed the sewing kit to get the cloth to make the clothes i had a little over 100 energy and did get a single sewing kit i do understand that is not the main item and the side ones are supposed to be a little harder to get i wish they could do it so that you don t have to waste so much energy to not even get a single one i do find myself trying to complete an order the whole day and not even finishing with the odds that the items come out i wish they could have a higher chance to get those another thing is the energies i wish they were not so expensive compared to other games the amount of energy you get in a day doesn t match the orders i can t even complete daily quests because i m stuck on one order that brings me to my next
