TRAVEL TOWN MERGE ADVENTURE V2 12 473 MOD APK

as mentioned in many other comments daily tasks are difficult to complete but can be accomplished in the following ways 1 play every few hours for 5 minutes each time pay for energy diamonds and or items i think these products are priced fairly thank you for your fun game this is also a good way to engage whales say the most expensive 120 pack from the store gets the player 8 000 diamonds even at a low exchange rate of 100 energy per 40 diamonds that s 20 000 energy the player should have the opportunity to spend it fast and without any extra hassle when unlimited members late cancel for the first time in a 30 day period their late cancellation fee will be automatically waived each subsequent late cancel fee will be charged as normal until the perk is renewed after 30 days the game was fun at first but i ve had many glitches over the past few months i assume this is coming from new updates first i haven t been about to play for the past 3 5 days because as soon as i get on it says there is an internet connection issue and then loads forever and nothing happens this is 100 not an internet issue on my end and i don t think there s a way that i can fix this problem since the game will completely load in and then when i get to the board it starts having the issue second i ve had a one one my production items just copy itself for no reason it s a low level one and i have no use for it
